LEAD TIME Approximately 6-8 weeks

CARE

Painted Timber Frame

Dust gently with a soft, dry or slightly damp microfibre cloth. Avoid abrasive cleaners, scouring pads or strong chemical products, as these may affect the painted finish. Wipe up marks promptly and dry the surface thoroughly.

Keep away from prolonged direct sunlight or strong heat sources, which may alter the tone of the paint or affect the timber over time.

Mirror Glass

Clean the glass using a lint free cloth and a small amount of glass cleaner applied to the cloth rather than directly to the mirror. Take care to avoid moisture coming into contact with the frame

COLOUR OPTIONS

Bespoke colour options are available. Please contact sales@studio-atkinson.com for more information.
