LEAD TIME Approximately 6-8 weeks

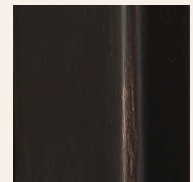

FINISH OPTIONS

PALE OAK

MID OAK

EBONISED

CARE

Dust regularly with a soft, dry or microfibre cloth to maintain the surface. For light marks, wipe gently with a slightly damp cloth, taking care not to saturate the timber, and dry immediately with a clean cloth.

Avoid abrasive materials or harsh cleaning products, as these may affect the finish. We recommend using coasters and protective pads beneath objects to help prevent surface marks.

Keep away from prolonged direct sunlight and excessive heat, which may alter the tone of the timber over time.
